HOWDENS JOINERY CO. | MAKING SPACE MORE VALUABLE

The Kitchen Collection

About Us

Howdens Joinery offers a range of integrated kitchen and joinery products designed to meet the needs of modern living. Our offer includes over 40 different kitchen designs, plus a full range of accessories, worktops, sinks, taps, doors, flooring, skirting and a wide variety of Lamona appliances exclusive to Howdens.

We are a trade only business that has been selling to trade professionals since 1995. Given the complexity of the modern kitchen we believe that only experienced, qualified builders and joiners should install our products.

- We offer you the reassurance that Howdens is a market leader. Last year we supplied over 350,000 kitchens to UK homes.
- There are over 570 Howdens depots nationwide so it's likely we are local to you. And because we are local, your builder can collect exactly what he needs, when he needs it, to install your dream kitchen.
- Each of our depots has experienced designers who will plan your kitchen and be on hand throughout to help you and your builder.

We do not endorse trade professionals directly, but to help you find one, talk to your local Howdens Joinery depot or visit www.howdens.com

Howdens App

Bring a kitchen to life by downloading the Howdens App. Hold your smartphone or tablet over the images marked with the 📷 icon in this brochure and, using the latest picture recognition technology, the App will start to play the associated movie. When the movie starts to play, double-tap the screen to make it full-size.

UK Manufactured

Howdens Joinery is a British business. The **UK** or **UK** logo indicates that the product illustrated is manufactured and assembled in the UK*.

Leonard Cheshire Disability

By working directly with Leonard Cheshire for 10 years, Howdens Joinery has developed a range of Inclusive Kitchens and accessories designed for the disabled or those with limited mobility.

Your Howdens Joinery Guarantee

Howdens Joinery supplies high quality kitchens and bathroom cabinetry to trade customers from stock. When professionally installed in the home, these products will provide many years of reliable use.

In the unlikely event of a problem occurring with our kitchen or bathroom cabinetry as a result of a defect in the manufacturing process or raw materials, we will happily, promptly and without charge, replace any cabinet (excluding frontals) for a period of within 25 years from the date of its installation in the UK and any frontal*¹ for a period of within 5 years from the date of its installation in the UK. In circumstances where you have a Howdens' branded kitchen and need to make a claim under this guarantee, please contact your local depot who will be able to help you through the process.

Lamona Appliance 2 Year Guarantee

All Lamona appliances and a selection of unbranded appliances come with a 2 year manufacturer's guarantee from date of purchase and what we believe is the best after-sales service in the UK. All Lamona ovens also include a 5 year guarantee on door glass. In the unlikely event you need to make a claim, you will need your proof of purchase and to contact your local depot who will be able to help you through the process.

Lighting 2 Year Guarantee

All lighting comes with a 2 year manufacturer's guarantee*². In the unlikely event of a defect in manufacturing or raw materials, we will happily replace any lighting product promptly and without charge.

Awarded to:
Howdens Joinery Group plc

*When shown with a kitchen range, this refers to the frontal and cabinet; components such as hinges, drawer boxes and handles may be sourced outside the UK. *¹Subject to availability of the particular frontal model. *²Excludes bulbs

Your Kitchen

In order to create a well organised, functional kitchen, take some time to think about the style of kitchen you want and the steps below.

Step 1: What will you use your kitchen for?

The kitchen is the heart of the home. How you use the space will depend on your individual preferences and lifestyle. For example, your kitchen will be both the focal point and functional centre of your home. You may want to entertain as well as cook, relax or work. Your kitchen could also be the area where other domestic chores are carried out, including washing and cleaning.

Step 2: How much available space do you have?

Whether you are replacing an existing kitchen or extending your room, the available space will determine the shape of your kitchen and the right design will maximise it.

Step 3: What type of layout would you like?

The 'working triangle' concept is an established method of kitchen planning. The cooking area, refrigeration and sink are positioned to form a triangle to create optimal working space, and this can be extended further to include a food preparation area.

All kitchens tend to have one of four basic layouts. They can be Galley or Linear, but most are L-Shaped or U-Shaped and may feature an island unit. A good kitchen design correctly allocates each working area within the chosen shape to result in a well organised, functional kitchen.

Kitchen Visualiser

The Kitchen Visualiser on the Howdens website is designed to help you create your perfect kitchen. This interactive guide enables you to get a feel for how different colours work with each other, all against an illustrated Howdens kitchen.

Experiment with different frontal colours, worktop colours and effects, flooring, splashbacks, sinks, appliances and wall colours to help create the right kitchen for you. The colours available are indicative of our ranges and may help you to choose your perfect kitchen.

You can find the Kitchen Visualiser at:
www.howdens.com/advice-inspiration/kitchen-visualiser

CAD Planning & Design Service

Howdens Joinery offers a free CAD planning and design service. Contact your local trade professional who will arrange for one of our designers to come out and measure your kitchen. They will discuss your requirements and our complete offering of appliances, sinks, taps, worktops, flooring, accessories and joinery.

We will then plan your kitchen, which will include a 3D plan as well as a walkthrough video. This can be sent to you via email, so that you can share your new kitchen design with friends and family.

For more information, either contact your local trade professional or your local depot.

Linear

L - Shaped

Galley

U - Shaped

Linear

This room can be very compact yet still allow for a good amount of work surface and storage space if planned efficiently. With extra tall wall units, the use of space is maximised.

L - Shaped

This room provides plenty of wall and base storage, with space for plate racks and a large cooking area. It usually includes a large corner unit and can also feature an island unit.

Galley

This room can suffer from a lack of storage as there is limited space for both wall and base units. Larder units and pan drawers are a useful option to provide extra storage.

U - Shaped

This room offers a large amount of workspace and storage space, however if too many wall units are used, it can feel quite enclosed. With the addition of wicker baskets and open wall units, storage becomes an open feature.

UK Manufacturing

Howdens Joinery is a British business. We pride ourselves on the sense of local community, traditional values, and long-established relationships that thrive in our depots and manufacturing facilities.

Each year, we manufacture around 3.5 million cabinets, 2 million kitchen frontals and 800,000 worktops and breakfast bars in our two purpose-built, state-of-the-art manufacturing sites in Howden, East Yorkshire and Runcorn, Cheshire. We also have a large distribution centre in Northampton and collectively these three sites cover 6.6 million square feet.

The UK manufacturing link does not stop there. The trees used to make the chipboard are grown and harvested in the UK, mainly in forests in Northumberland, Scotland and Wales. They are then turned into FSC® certified chipboard in the UK by EGGER and Kronospan.

Over 40% of Howdens products are manufactured in the UK, including all of our cabinets, laminate worktops, breakfast bars, upstands, backboards, and a selection of our kitchen frontals and joinery products.

We use around 200,000m³ of chipboard each year.

Our factories manufacture 800,000 worktops and breakfast bars each year.

Our factories manufacture over 3.5 million cabinets each year.

Our distribution fleet covers around 14 million miles each year.

The UK or UK logo indicates that the product illustrated is manufactured and assembled in the UK*.

Howdens Joinery & The Environment

All our manufacturing, distribution and warehousing sites have achieved ISO 14001 certification for environmental management.

Over 95% of our manufacturing waste is recycled each year. One element of waste from the manufacturing process is sawdust, which is recycled to heat our factories.

Howdens sets challenging targets to ensure that 100% of wood based product used in our manufacturing processes comes from certified sources.

We work closely with our suppliers to ensure that the items we purchase come from sustainable renewable resources and are produced in a socially responsible way. Howdens Joinery has successfully achieved the Forest Stewardship Council® (FSC®) and the Programme for the Endorsement of Forest Certification™ (PEFC™) Chain of Custody certificates, which apply to a number of products as indicated in this brochure. The Chain of Custody certification means there is an unbroken and documented chain of ownership all the way from the forest, via the mill, the importer, the manufacturer and supplier to the end user. Our full environmental policy is available on request.

A Truly Local Business

Howdens Joinery is the UK's leading trade supplier of kitchens, joinery and appliances, employing over 6,600 people and supplying 300,000 small builders with over 350,000 complete kitchens every year.

Despite its scale, Howdens remains a local business with traditional values. The painting of the Howden village is an analogy for how our business works. There are over 570 Howdens Joinery depots, and in each one of them, the business is an integral part of the local community. Our customers are local trade professionals, who need trusted suppliers to support their businesses. We support them with high quality products, local customer accounts, immediate availability of products, and CAD planning and design services.

To learn more about the relationships that make Howdens Joinery a part of local life all around Great Britain, visit www.howdens.com/about-us/a-truly-local-business

Howdens' 5-0 team

In Northampton, where Howdens' National Distribution Centre (NDC) is based, an annual summer event attracts more than 1,000 people. Throughout the day, 39 teams compete in The Rotary Club of Northampton Dragon Boat Festival, in a race over 250 yards. Howdens entered five teams, and through individual sponsorship and donations, raised a total of £4,000 for the Warwickshire and Northamptonshire Air Ambulance, with the overall winners being 'Howdens 5-0' from the NDC warehouse.

Claire Cook from Howdens' Consett depot

One of Howdens' more energetic employees is Claire Cook, of the Consett depot in County Durham. Claire signed up for the Great North Run to raise money for Leonard Cheshire Disability, a national charity supporting disabled people. When the charity asked for volunteers to take on its Tri Together London triathlon, her manager, Julie Bywater, put Claire forward. She rose to the challenge, swimming, cycling, and running the final stage into Crystal Palace stadium - which she described as "total euphoria".

John Worthington and staff

St Francis House Children's Hospice in Didsbury, Manchester provides a home from home for families with children who have a life-threatening or life-limiting condition. The depot manager at Howdens in Stockport, John Worthington, installed a custom made donation box in the depot. John's customers kindly donated clothes and shoes, quickly helping to raise over £500 for the hospice.

Scunthorpe RUFC

In his spare time, Ian Lee, Supply Manufacturing Group Leader at Howdens' manufacturing site in Howden, East Yorkshire, is a keen rugby player. He manages the development squad at Scunthorpe Rugby Club, where students from 18 upwards play in the Yorkshire RFU Championship. Match-day supplies, travel and equipment are costly, so Ian arranged £500 in sponsorship from Howdens - and now his lads are climbing the league table.

James Hayes and Joshua Blythman

Howdens has been involved for many years with The Construction Industry Training Board (CITB), the national organisation for construction training in the UK. In particular, the Howden Joinery Bursary funds the first year's wages for apprentice joiners, enabling them to work in companies that couldn't otherwise afford to take them on. Through the bursary, Hordean Carpentry & Building Services, in Waterlooville, Hampshire, has recently taken on Joshua Blythman, as well as James Hayes who is now an apprentice carpenter with DM Habens Ltd (the Builders) of Hampshire.

Chris Pennington from Howdens' Chatham depot

The triathlon is the favourite event of Chris Pennington, Depot Manager at Howdens in Chatham, Kent, who's competed several times in the London Triathlon. Over 13,000 triathletes of all ages and abilities take part each year, and Chris does the 'Olympic distance', swimming 1,500 metres, cycling 40 kilometres and running 10 kilometres. So far, he's raised more than £1,500 for two charities: Leukaemia & Lymphoma Research, and the Cystic Fibrosis Trust, helping those with conditions he lost his father and a good friend to.

Adrian Knight and wife Yani

Around the country, a huge variety of dedicated services offer support to people with different kinds of additional needs. One example is Little Miracles, a support group in Peterborough for children with additional needs or disabilities. Adrian Knight, who works in IT for Howdens, was keen to help: his wife Yani is involved with the centre, and they have a disabled son who attends sessions there. He arranged for the Howdens' Peterborough North depot to donate a new kitchen, complete with appliances, fixtures and fittings, forming part of an amazing transformation to the existing structure.

Colin Smith

At the Phoenix Youth Centre in Daventry, over 170 young people take part in a wide range of activities, and receive help with problems relating to drugs, alcohol and relationships. The centre also runs food awareness and cookery courses. Until recently, very poor facilities made this difficult. But a new kitchen - with cabinets, worktops and appliances donated by Howdens, and installed by Vice President and Chairman, Colin Smith, has improved the classes dramatically.

Players of the Manchester United Supporters Football Club

In Doncaster, there's a football team with a very unusual name: the Manchester United Supporters Club! It's been competing for more than 20 years, and Gaz Davies, an account holder at Howdens in Worksop, is a committed member of the squad. The depot has made donations to help buy new kit - and, to say thank you, the team made sure the t-shirts feature the Howdens Joinery logo. Assistant Manager Karl Stoneham is planning another donation in 2014, helping the club continue its success on the field.

Cabinet Features

Howdens Joinery offers a wide range of rigid, factory assembled cabinets*¹ as well as innovative storage solutions and accessories. Our cabinets are manufactured and tested in our factories in Howden and Runcorn. Most units are available with upgrade soft close metal drawer boxes and soft close door hinges. All our rigid drawer units come with metal drawer boxes as standard. See page 139 to view our selection of cabinet and drawer storage solutions.

Howdens has a 25 year guarantee on all our cabinets (excluding frontals) covering defects in the manufacturing process or raw materials. See page 247 for full details.

†Subject to availability

All measurements are in millimetres and all dimensions are approximate. Allowances should be made for doors and fascias where appropriate. All doors are universal and can be hinged left or right. Photography is included as a guide only and appliances are shown for illustration purposes only. The dimensions given alongside all corner base units indicate the overall fitting allowance that should be made when planning your kitchen.

Inclusive Kitchens

Howdens Joinery offers a complete range of kitchens and joinery products designed for disabled people or those with limited mobility. These are our Inclusive Kitchens, which have been developed by working directly with Leonard Cheshire Disability.

Extensive Choice

The majority of kitchen ranges in this brochure are available as Inclusive Kitchens*, with an extensive choice from traditional shaker styled doors to contemporary high gloss slab doors.

Affordability

This extensive collection spans all price points, ensuring that there is not only a style to suit every taste but also every budget. Although specifically designed to be highly accessible, our Inclusive Kitchens are comparable in price to our standard range, ensuring choice and affordability.

Ease of Fit and Quality

Rigid, factory assembled cabinets available from stock ensure ease of fit and a high level of quality. Cabinets are specifically designed for accessibility and therefore do not require cutting down.

For more information about Inclusive Kitchens, visit www.howdens.com/kitchen-collection/inclusive-kitchens

Howdens App

Bring Inclusive Kitchens to life by downloading the Howdens App. Hold your smartphone or tablet over the image on this page and, using the latest picture recognition technology, the App will start to play the associated movie. When the movie starts to play, double-tap the screen to make it full-size.

Products marked with this logo are designed to meet the requirements of Inclusive Kitchens.

*Gloss Integrated Handle ranges and Technik are not available as Inclusive Kitchens.

Inclusive Kitchen Accessories

Our range of cabinets are complemented by a number of accessories, specifically designed to provide greater access to work surfaces and cabinets. A range of rise and fall worktop systems, adjustable cabinet brackets and pull-down shelves are available along with an extensive number of pull-out accessories. Rise and fall worktop systems enable worktops to be raised or lowered depending on individual requirements, making the kitchen a user friendly space.

Lighting

The correct lighting will accentuate the features of your kitchen and provide a light bright space in which to work. Lighting can also be used to change the mood and ambience of the room or create a dramatic effect when used for entertaining or eating.

Illuminate your kitchen with our practical ranges of warm white cabinet, shelf and plinth lighting. All lighting comes with transformer/driver included, apart from recessed strip lighting.

All lighting comes with a 2 year manufacturer's guarantee*. In the unlikely event of a defect in manufacturing or raw materials we will happily replace any lighting product promptly and without charge.

For full detail product specifications please refer to www.howdens.com/kitchen-collection/kitchen-accessories/lighting

Waste Management

The issue of managing household waste is becoming more complex with levels of waste, landfill, recycling, waste separation and council collections under increasing pressure and media scrutiny.

Within our homes, household waste management is certainly becoming an increasingly time and space consuming challenge.

Howdens has a range of products designed to help you separate, conceal and dispose of your waste, in order to keep your kitchen hygienic and tidy.

For full detail product specifications please refer to www.howdens.com/kitchen-collection/kitchen-accessories/waste-management

Bring waste management to life on the Howdens website. You can learn more about these products through our collection of movies at www.howdens.com/advice-inspiration/movies

Bins

Hide waste away in a variety of single compartment and recycling bins.

NEW

85L Integrated Recycling Bin*1
85 litre capacity (2 x 32L, 1 x 21L)
3 containers separate recycling and waste

NEW

64L Integrated Recycling Bin*1
64 litre capacity (2 x 32L)
2 containers separate recycling and waste
Cabinet size - 450mm

Pull-Out Recycling Bin
40 litre capacity (1 x 40L) **HYH1580**
Store recycling in even your smallest cabinet
Minimum cabinet size - 300mm*2

Conceal your waste within a cabinet
Minimum cabinet size - 400mm

Waste Disposal Units

Fitted discreetly under the sink, waste disposal units are a practical solution for discarding waste by grinding food into tiny particles that are automatically flushed away.

For further details please see page 221.

Handles

The right handle selection and positioning can transform the look of your kitchen units, taking them from ultra modern to elegantly traditional. Our range enables you to find your perfect combination.

For full detail product specifications please refer to www.howdens.com/kitchen-collection/kitchen-handles

Worktops

Performance and appearance are equally important in a worktop, which needs to stand up to a variety of uses whilst complementing your kitchen frontal.

A range of attractive and durable laminates are available in 38mm and 28mm thicknesses. 38mm are available in a choice of gloss, matt, smooth and textured finishes and in bullnose and square edged profiles.

Solid wood worktops are available to create a premium finish for your kitchen in 40mm and 27mm thicknesses.

The majority of Howdens worktops are 616mm deep which allows for a deeper overhang.

All worktops come with a 1 year manufacturer's guarantee. In the unlikely event of a defect in manufacturing or raw materials, we will happily replace any worktop promptly and without charge.

For full detail product specifications please refer to www.howdens.com/kitchen-collection/worktops

F =

P =

All laminate worktops*, breakfast bars, upstands and backboards are manufactured in the UK.

All laminate worktops are tested to BS6222:1999 Part 3. A selection of these use chipboard further complying with BS EN 312: 2003 Type P3 and WPIF/1:2000 (Wood Panel Industries Federation).

*Square edged worktop edging is not manufactured in the UK.

Solid Wood Block - 616mm deep

40mm and 27mm solid wood worktops add warmth and character to a kitchen. They are suitable for use with any sink and can be profiled or grooved to create intricate detailing. See page 174 for worktop oils and coatings to protect and finish your solid wood worktop.

Appliances

Choose from a wide selection of high quality integrated and freestanding cooking, dishwashing, laundry and refrigeration products.

All gas and electrical installations must be carried out by qualified experts, and according to current building regulations and the instructions supplied.

All appliances are manufactured to the highest standards and supplied with a 1 or 2 year manufacturer's guarantee from date of invoice.

Lamona Appliances

The Lamona range of appliances, sinks and taps is exclusive to Howdens Joinery and has been selected to perfectly complement our range of kitchens.

Lamona appliances are designed to look great and fit perfectly within your kitchen. They are manufactured to the highest standards to ensure they are durable and reliable, use less energy and water and run quietly, whilst providing excellent value for money.

All Lamona appliances and a selection of unbranded appliances come with a 2 year manufacturer's guarantee from date of purchase and what we believe is the best after sales service in the UK. All Lamona ovens also come with a 5 year guarantee on door glass.

Lamona branded appliances are available from stock in over 570 local depots to your trade professional.

30 Minute Indian Meals Made Simple

Receive a Lamona Cookbook when you have a free kitchen CAD design plan.

Howdens has teamed up with food writer, Sunil Vijayakar for this Lamona Cookbook, "30 minute Indian meals made simple", which features 47 delicious Indian recipes that can all be cooked in 30 minutes.

Sunil shares with us some of his best culinary secrets - demonstrating some of the finest cultural flavours and ideas, all created using Lamona appliances, exclusive to Howdens. Over the past 15 years, Sunil has regularly contributed to magazines and this is just one of over 40 books that he has written, including "Fresh Indian" and "200 Curries".

Indian food has had a huge influence on cooking and eating habits in the UK - and on the design of our kitchens and the equipment we use in them. Indian cuisine draws on a wide array of ingredients, inspiring Howdens kitchen designers to create a wealth of clever storage ideas.

Since Howdens started in 1995, curry has become part of our culture too. Although our business is a national one, it runs very much on a local level, where decisions are made in each of our depots, so getting Howdens people together to discuss issues of the day over a curry has become a regular and important way of sharing thoughts. This tradition has become such a part of Howdens life that every year we give an award to the 'Best Indian Restaurant in the UK', and because of our great love of curry, it seemed highly appropriate that the theme of this cookbook should be Indian food.

The Lamona cookbook is available from your local depot when you have a free kitchen design plan. For more information, visit www.howdens.com/advice-inspiration/lamona-cookbook

LAMONA

Exclusive to Howdens Joinery Co.

Oven Guide

Key:

Conventional Cooking

Uses heat from elements located in the top and bottom of the oven.

True Fan Cooking

The heating element is located around the fan for better heat circulation.

Cooking with Upper Heating Element

The upper heating element is used independently to give concentrated top heat. It is advisable to use this facility for no more than 15 minutes, towards the end of cooking.

Fan Grilling

The grill element browns food and seals in the juices, while the fan circulates heat evenly. As it needs lower temperatures, it is more economical.

Rapid Heat

Significantly reduces pre-heating times by rapidly heating the oven to the required temperature. Once the temperature is reached, the oven can be turned to the desired function for cooking.

Fan Assisted Cooking

Circulates the heat generated by upper and lower heating elements.

Cooking with Lower Heating Element

The lower heating element is used independently to give concentrated lower heat, helping ensure food is cooked right through.

Grilling

Choices include variable (adjustable power level) or fixed (adjustable shelf position), and on some products the option to use half the grill for small meals (dual zone).

Combination Cooking

By combining both the microwave and oven elements of the appliance, food can be cooked quickly whilst still browning and retaining the taste.

Defrosting

Using the fan without heat circulates air around frozen food. It is more hygienic than leaving frozen food out to defrost over a long period of time.

Pyrolytic Cleaning

This setting heats the oven to 500°C which will burn dirt and grease into ash. This can then be simply wiped clean which is easier and more economical than cleaning by hand.

Telescopic Runners

Telescopic shelf rails are fitted with bearings for smooth and stable running. Food can be accessed without removal from the oven.

Touch Control

Allows for precise control of the oven as well as having an easy to clean surface.

Flame Failure Device

Part of the gas burner system that detects if the flame is extinguished and cuts off the gas supply.

Automatic Ignition

The burner is automatically ignited at the turn of a knob.

Child Lock

This safety feature prevents the oven from being switched on accidentally.

Microwave Ovens

Microwave wattage.
Grill wattage.

Amperage Required

Supply needed.

Oven Net Usable Capacity

Minimum oven capacity in litres.

Energy Efficiency

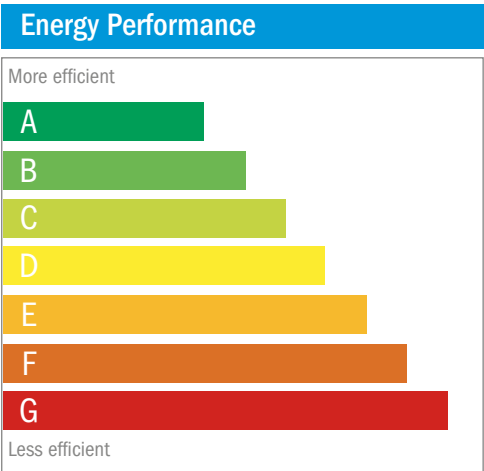

Energy rating.

Products marked with this logo are designed to meet the requirements of Inclusive Kitchens.

Hobs

Our selection of hobs are available in 30cm, 60cm and 70cm widths, and feature traditional gas, induction, ceramic and solid hot plate. All our hobs are easy to clean and designed with safety in mind.

LAMONA

Lamona branded hobs are exclusive to Howdens Joinery and come with a 2 year manufacturer's guarantee from date of purchase. This means your trade professional is assured of local stock and availability, along with great functionality, reliability and the reassurance of high quality products to suit your Howdens kitchen.

Key:

Touch Control
Allows for precise control of the oven (or hob), as well as having an easy to clean surface.

Automatic Ignition
The burner is automatically ignited at the turn of a knob.

Booster
This facility enables water to be brought to the boil quickly and efficiently. The selected cooking zone heats to maximum power for a period of time before automatically dropping to a lower power setting.

Flame Failure Device
Part of the gas burner system that detects if the flame is extinguished and cuts off the gas supply.

Timer
The cooking zone automatically switches off once the cooking time has come to an end.

Residual Heat Indicator
Warns that hobs are hot even after turning off.

Hi-lite Cooking Element
Heats up in less than five seconds.

Flush Fitting Design
Hob reaches only 5mm above the worktop for attractive lines.

Minimum Power Rating
The power consumption of each burner/plate in kilowatts (kW).

Child Lock
This safety feature prevents the hob from being switched on accidentally.

Amperage Required
Supply needed.

Products marked with this logo are designed to meet the requirements of Inclusive Kitchens.

All Lamona appliances come with a 2 year manufacturer's guarantee from date of purchase.

For full detail product specifications please refer to The Appliance, Sink & Tap Collection brochure or visit www.lamona.co.uk

Bring hobs to life on the Howdens website. You can learn more about these products through our collection of movies at www.howdens.com/advice-inspiration/movies

Induction Hobs

Induction hobs work through magnetism, heating only the diameter of the saucepan base, and are therefore more energy efficient than ceramic, electric and gas hobs.

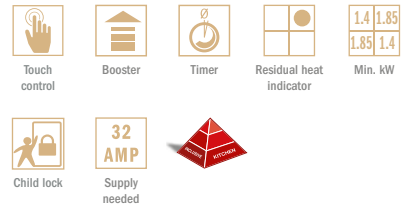

Lamona Front Touch Control Induction Hob

Ceramic LAM1763

Not compatible with LMS4400 Lamona Built-Under Double Fan Oven and HAP4500 Bosch Built-Under Double Fan Oven.

Features

- Frameless hob
- Front touch controls
- 4 induction zones
- 2 year guarantee

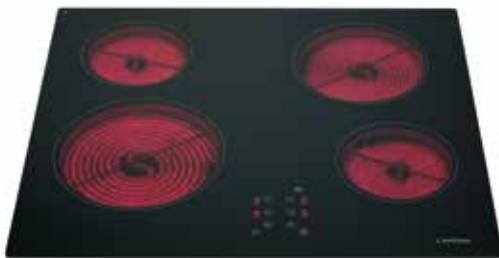

Please note this hob requires suitably sized cookware with a magnetic base.

(As the induction hob creates a magnetic field around its vicinity, it is not suitable for people who have a pacemaker or insulin pump in their bodies.)

Ceramic Hobs

Using hidden elements, heat transfers through super-tough glass to the pan.

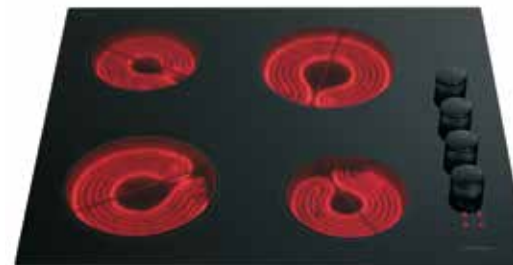

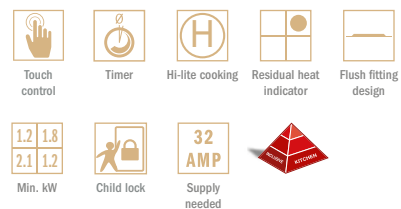

Lamona Front Touch Control Ceramic Hob

Ceramic LAM1741

Features

- Frameless hob
- Front touch controls
- 4 hi-lite cooking zones
- 2 year guarantee

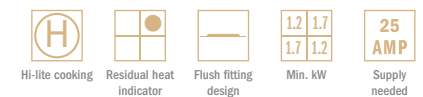

Lamona Side Control Ceramic Hob

Black with Black or Silver Knobs LMS1700*
White with White or Silver Knobs LAM1711/02*1

Features

- Frameless hob
- 4 hi-lite zones
- 2 year guarantee

Ceramic Hobs

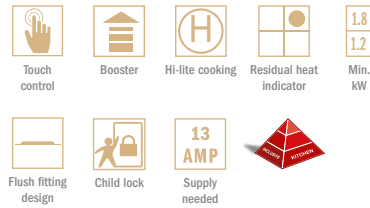

Lamona Front Touch Control Ceramic Domino Hob

Ceramic LAM1742

Not compatible with 28mm worktop and built-under compact oven

Features

- Frameless hob
- Front touch controls
- 2 hi-lite cooking zones
- 2 year guarantee

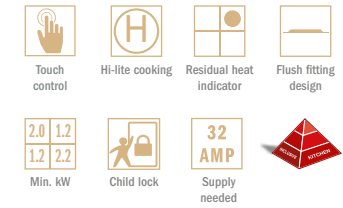

Bosch Front Touch Control Ceramic Hob

Ceramic HAP1674

Features

- Frameless hob
- Front touch controls
- 4 hi-lite zones
- 2 year guarantee subject to registration with Bosch

Electric Hobs

Using electricity as fuel, the burner/solid hot plate transfers heat to the pan.

Lamona Electric Hob

Extractors

Extractors today are not only functional but can also provide an elegant focal point within the kitchen. Choose from our selection of chimney, canopy, integrated and conventional extractors. All our extractors can either be installed ducted out or re-circulated.

LAMONA

Lamona branded extractors are exclusive to Howdens Joinery and come with a 2 year manufacturer's guarantee from date of purchase. This means your trade professional is assured of local stock and availability, along with great functionality, reliability and the reassurance of high quality products to suit your Howdens kitchen.

Key:

Extraction Rate
Minimum rate of extraction in cubic metres per hour. Rate of extraction is based on ducted installation.

Fan Speeds
Number of fan speeds available.

Noise Level
Noise level in decibels at maximum fan speed (dBA).

Built in Light
A secondary source of light for convenience whilst cooking.

Ducting Kit
Ducting kit diameter sizes which can be used.

Automatic Fan
Microswitch control operates fan automatically when door or visor is opened.

Remote Control
Remote operation for ease of use.

Amperage required
Supply needed.

Products marked with this logo are designed to meet the requirements of Inclusive Kitchens.

Products identified with this symbol or **UK** are manufactured in the UK.

All Lamona appliances come with a 2 year manufacturer's guarantee from date of purchase.

Refrigeration

Our refrigeration range includes larger fridges, freezers and combi fridge freezers, available as integrated or freestanding. Features such as frost free and fast freeze are designed to save you time and provide optimum storage conditions. Drinks coolers provide the opportunity to create a feature from your cooling appliances.

LAMONA

Lamona branded refrigerators are exclusive to Howdens Joinery and come with a 2 year manufacturer's guarantee from date of purchase. This means your trade professional is assured of local stock and availability, along with great functionality, reliability and the reassurance of high quality products to suit your Howdens kitchen.

Bring refrigeration to life on the Howdens website. You can learn more about these products through our collection of movies at www.howdens.com/advice-inspiration/movies

Key:

Frost Free
Prevents the build up of frost and removes the need to defrost the freezer.

Fast Freeze
Rapidly freezes freshly prepared or recently purchased food, preventing the freezer temperature from rising too high.

Storage Period in Power Failure
The length of time in hours that food will be kept frozen before defrosting begins.

Ice Box Rating
Freezers are graded using a four star rating system, which specifies the minimum temperature and maximum storage time for freezing fresh food.

Temperature Warning Indicator
Warns if the temperature within the freezer rises.

Fridge/Freezer Net Usable Capacity
Fridge/freezer net storage capacity in litres.

Thermostatic Regulator
Varies the internal temperature.

Concealed Evaporator Plate
For hygiene and easy cleaning.

CFC/HFC Free
All fridges and freezers are free from CFC and HFC gases which are harmful to the environment.

Energy Efficiency
Energy rating.

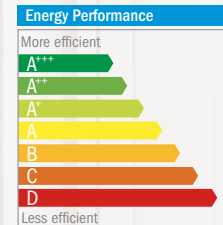

Amperage Required
Supply needed.

Products marked with this logo are designed to meet the requirements of Inclusive Kitchens.

Dishwashers

Our dishwashers are all 'A' rated for energy consumption, and are available in standard and slimline widths, integrated or freestanding. A range of programmes provide outstanding wash and dry results.

LAMONA

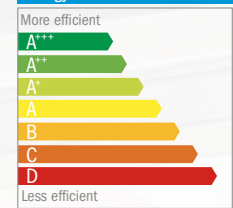

Lamona branded dishwashers are exclusive to Howdens Joinery and come with a 2 year manufacturer's guarantee from date of purchase. This means your trade professional is assured of local stock and availability, along with great functionality, reliability and the reassurance of high quality products to suit your Howdens kitchen.

Bring dishwashers to life on the Howdens website. You can learn more about these products through our collection of movies at www.howdens.com/advice-inspiration/movies

Key:

- 
Capacity
 Number of place settings.
- 
15 ltrs **Water Usage**
 Consumption of water in litres on normal wash programme.
- 
Automatic Water Softener
 Ensures the correct amount of salt is released for each load.
- 
Watersafe Waterstop System
 In the event of a leak, the water supply to the dishwasher is switched off automatically.
- 
55 dBA **Noise Level**
 Noise level in decibels (dBA).
- 
Top Cutlery Tray
 Third unique loading level for cutlery/utensils located at the top of the dishwasher, freeing more space in the lower basket.
- 
'Fast Click' Height Adjustable Basket
 'Fast Click' uses a clip system to alter the height of the top basket.
- 
Standard Height Adjustable Basket
 To adjust the height, remove the whole basket.
- 
Upper Basket Folding Racks
 Folding upper basket racks to allow 2 tier stacking and greater flexibility.
- 
Upper Basket Folding Tines
 Tines can be folded down to create more space for glasses or mugs.
- 
Lower Basket Folding Plate Tines
 Support tines can be adjusted to accommodate larger items such as saucepans and large bowls.
- 
Sliding Cutlery Basket
 Feature designed to allow free placement of dishes according to size by moving the cutlery basket along the tines.
- 
35 **Plate Size Diameter (cm)**
 The maximum plate size in cm the dishwasher can hold.
- 
Salt and Rinse Aid Warning Indicator
 Shows when dispensers need refilling.
- 
1.05 kW/h **Power Usage**
 In kW/h on normal wash.
- 
13 AMP **Amperage Required**
 Supply needed.
- 
A **Energy Efficiency**
 Energy rating Wash rating Drying rating.
-

Laundry

Our range of integrated washing machines, washer dryers, tumble dryers and freestanding washing machines meet all your laundry needs. Special features include an economy programme to save energy and water.

LAMONA

Lamona branded laundry is exclusive to Howdens Joinery and comes with a 2 year manufacturer's guarantee from date of purchase. This means your trade professional is assured of local stock and availability, along with great functionality, reliability and the reassurance of high quality products to suit your Howdens kitchen.

Bring laundry to life on the Howdens website. You can learn more about these products through our collection of movies at www.howdens.com/advice-inspiration/movies

Wash/Dry Load
Maximum wash/dry capacity (kg).

Spin Speed
Measured in revolutions per minute (rpm). At a fast spin speed, more water is extracted from the wash load, reducing drying time and overall running cost.

Cold fill
An energy efficient system. Only the water required for the washing is heated. There is no loss of heat in the pipeline from the hot water tank or boiler to the machine. This can also increase the efficiency of the enzymes within detergents.

Automatic Load Detection System
The washing machine is fitted with a sensor, enabling it to use the exact amount of water needed to wash and rinse in relation to the load, without compromising performance.

Child Lock
This safety feature prevents unwanted changes to appliance settings.

Energy Efficiency
Energy rating
Wash rating
Spin drying rating.

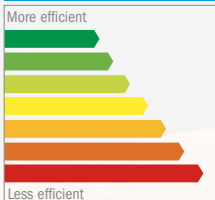

Products identified with this symbol are manufactured in the UK.

All Lamona appliances and a selection of unbranded appliances come with a 2 year manufacturer's guarantee from date of purchase.

Taps

Our extensive range of taps will add the finishing touch to your sink area. With both traditional and modern styles, you will be sure to find the ideal blend of design and functionality.

LAMONA

Lamona branded taps are exclusive to Howdens Joinery and come with a 12 month guarantee. This means your trade professional is assured of local stock and availability, along with great functionality, reliability and the reassurance of high quality products to suit your Howdens kitchen.

All Lamona taps comply with the Water Supply (Water Fittings) Regulations 1999.

Key:

Water Pressure
Minimum and maximum
water pressure.

Dual Flow
Cold water passes through
the outer tube and hot
water through the inner
tube.

Single Flow
Hot and cold water is
mixed together in the
body of the tap.

Products marked with this
logo are designed to meet the
requirements of Inclusive Kitchens.

Products identified with this symbol
or UK are manufactured in the UK.

Flooring

We offer a variety of flooring to suit every style and budget, from solid oak and laminate flooring to natural stone effect laminate tiles.

Our range includes a choice of colours, such as oak, bamboo, American pecan, beech and walnut, as well as different finishes, from timber effect to limestone and slate. Our selection provides products suitable for a wide range of applications throughout the home and in commercial properties.

Howdens also supplies a variety of flooring accessories for a professionally fitted floor, including underlay, damp proof membrane, flooring spacers, colour-matched scotias, pipe roses and floor profiles.

For full detail product specifications please refer to The Flooring Collection brochure or visit www.howdens.com/flooring-collection

Products identified with **UK** are manufactured in the UK.

Flooring

The natural beauty of oak is available in solid bevelled planks. Benefits include greater sound absorption over laminate flooring and warmth underfoot.

Strand woven bamboo flooring is a great alternative to traditional oak. It is both stylish and warm, with a matt lacquer finish, which makes it a striking feature in any room. Bamboo is hardwearing and environmentally friendly.

The elegant look of engineered flooring can add warmth and character to any room in the home. Howdens Real Wood flooring is the perfect choice as it is less reactive to changes in temperature. Our range of Real Wood flooring is available in 3 different profiles - square, micro bevel and V groove.

Howdens Professional Fast Fit V Groove Light Grey Oak

Howdens Professional Walnut

Flooring

The Howdens range of laminate flooring is a comprehensive collection of products for the professional installer. Offering excellent value for money and high quality features, this flooring ensures excellent appearance and performance. Featuring a glueless click system, the product is easy to install and offers ultimate durability. We can offer the look of real wood and ceramics with the comfort and practicality of a laminate floor.

Howdens supplies a variety of flooring accessories for a professionally fitted floor. The right underlay is essential for use with floating floors. It provides thermal insulation and reduces the transmission of sound. A damp proof membrane can be used on stone or concrete based sub-floors before laying the underlay. Use flooring spacers around the edge of the floor to allow a gap for expansion and contraction, colour-matched scotias can then be used to cover the gaps around the edge.

Howdens Professional Fast Fit V Groove Basalt Slate Tile

High Performance Underlay

Joinery Collection

Howdens Joinery has over 100 door styles to choose from including internal, sliding wardrobe, external, French and garage doors. We also offer quality joinery products from hardware and stair parts to skirting, plus the tools, fixings and accessories you need to install them.

We offer a wide choice of joinery products for all kinds of renovation, refurbishment and new build projects. We have designed our range specifically to meet the diverse demands of today's homes, commercial properties and public spaces.

Our range of doors and joinery use real timber and veneers. Wood is a naturally grown material, meaning it is subject to variance in colour and grain.

Products identified with **UK** are manufactured in the UK.

For full details please refer to The Joinery Collection brochure or visit www.howdens.com/doors-joinery-collection

Internal Doors

There are many factors to consider when choosing an internal door. How it looks is obviously essential; the material it is made from, the style of panelling, whether it is glazed and the type of glazing. You will also want to think about how easy it is to maintain and how well it will stand up to the test of time. And of course, you will want to make sure it fits within your budget.

In the Howdens range, there is sure to be an internal door that meets all your requirements exactly. We offer a range of moulded, stile & rail, softwood, hardwood, flush and sliding wardrobe doors. Our choice of internal doors is designed for both traditional and contemporary interiors. Glazed doors are another option, with all glass toughened to BS 6206, BS EN 12600 or BS EN 12150. Fire resistant doors are also available.

External Doors

A great deal is expected of an external door. It has to create a good first impression when you enter a property, and with Howdens you can do this in contemporary style or with a historically accurate design. You may also want to let in natural daylight – if so, we have a variety of pre-glazed doors. You can decorate our doors however you want: we make them ready for all kinds of paint and stain finishes.

We also offer doors in a range of materials. Each involves different types of maintenance, and they are all designed to withstand the elements.

Security is another issue: your door must resist impact, and should have the right hardware to keep unwanted visitors out. You will also want effective insulation, to block draughts and prevent heat escaping. Again, Howdens has all the products you need.

The Burford Joinery Collection

Following the popularity of our range of Burford kitchens, we offer a collection of doors, joinery and hardware that is specifically designed to match your Burford kitchen.

The Burford collection of internal doors is exclusive to Howdens and includes 4 panel moulded, single panel oak, and 4 panel oak doors. Glazed doors are available in Burford 4 panel oak and moulded, and single panel oak.

Howdens' Burford doors were awarded the John Hedgecock Memorial Award in 2011. This award was first introduced in 2010 as a tribute to the British Woodworking Federation's former technical manager and one of the leading authorities on woodworking and joinery manufacture who died in 2009. The award is given to individuals, companies, projects or products which demonstrate exceptional technical excellence, achievement or innovation in joinery manufacture.

Designed to match your Burford door is an exclusive range of contemporary and traditional Burford skirting and architrave, available in primed MDF and oak veneered finishes. You can complete the look with hardware that has been chosen to match your Burford kitchen handles.

✓ Finish suitable for door range.

✗ Finish not suitable for door range.

* To be finished on edges only.

All Howdens doors are suitable for paint finishes. Exterior stains are not suitable for internal applications as they do not adequately protect the door against knocks, scratches and dents.

Interior stains and varnishes are not suitable for external applications as they are not flexible enough to cope with the movement of external doors and do not protect against UV light.

Some finishes may cause the grain to raise slightly. A light sand between coats is recommended.

Bathroom Cabinet Collection

With 23 different styles and finishes, the bathroom cabinet range provides an extensive choice from traditional timber wood grain effect doors to modern gloss doors.

Howdens bathroom cabinetry range uses our rigid factory assembled cabinets to create vanity units, cistern units and a variety of other storage solutions. Curved units provide contemporary style, add character and functionality with towel racks, and complete the fitted look with a choice of decorative accessories.

A contemporary finish can be achieved with wall hung cabinets or stainless steel decorative legs.

Choose from a wide variety of handles and worktops and finish with a specifically designed laminate flooring to suit a bathroom environment.

Your Howdens Joinery Guarantee

Howdens Joinery supplies high quality kitchens and bathroom cabinetry to trade customers from stock. When professionally installed in the home, these products will provide many years of reliable use.

In the unlikely event of a problem occurring with our kitchen or bathroom cabinetry as a result of a defect in the manufacturing process or raw materials, we will happily, promptly and without charge, replace any cabinet (excluding frontals) for a period of within 25 years from the date of its installation in the UK and any frontal* for a period of within 5 years from the date of its installation in the UK. In circumstances where you have a Howdens' branded kitchen and need to make a claim under this guarantee, please contact your local depot who will be able to help you through the process.

F =  Excluding curved frontals

Products identified with UK are manufactured in the UK.

For full details please refer to The Bathroom Cabinet Collection brochure or visit www.howdens.com/bathroom-cabinet-collection

*Subject to availability of the particular frontal model

- FIRA accreditation and FIRA Gold award for product excellence
- FSC® certification on selected ranges

Your Howdens Joinery Guarantee

Howdens Joinery supplies high quality kitchens and bathroom cabinetry to trade customers from stock. When professionally installed in the home, these products will provide many years of reliable use.

In the unlikely event of a problem occurring with our kitchen or bathroom cabinetry as a result of a defect in the manufacturing process or raw materials, we will happily, promptly and without charge, replace any cabinet (excluding frontals) for a period of within 25 years from the date of its installation in the UK, and any frontal* for a period of within 5 years from the date of its installation in the UK. In circumstances where you have a Howdens' branded kitchen and need to make a claim under this guarantee, please contact your local depot who will be able to help you through the process.
